The administration bill split party lines in the committee, and several Democrats, Seeks Public Explanation including George and Schwellenbach (D) Washington, were drafting drastic amendments. Further strengthening George's suggestion for delay was a bitter-end group pledged to fight for retention of the arms embargo. Led by Senator Clark (D) Missouri, a member of the committee, this bloc claimed TO SECURE ACTION more than a score of signers to a petition demanding an arms embargo in any legislation enacted.

Committee Chairman Pittman planned to ask committee expressions on fixing a date to begin drafting a neutrality bill. He recommended speedy action. Majority Leader Barkley, also a member of the committee, and Senator Pepper (D) Florida, backed him up. But

"It seems to me that with elements of controversy and delay injected into this question as they are. t would be wise to postpone action. We could come back next January and enact a neutrality law. The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or chew poorly—your stomach often pours out too much fluid. Your food doesn't digest and you have gas, heartburn, nausea, pain or sour atomach. You feel sour, sick sad upset all ever. Doctors say never take a laxative for stomach pain. It is dangerous and foodish. It takes those little black tablets called Bell-ans for Indigestion to make the excess stomach fluids harmless, relieve distress in no time and outcomes.

### RESPECT OLD GLORY

THE United States flag is the third oldest of the national standards of the world; older than the Union Jack of Great Britain It's struggling on with the will to or the tri-color of France.

"Old Glory" was first authorized by Congress June 14, And making better this good old 1777. This date is now celebrated throughout the nation by the observance of Flag day.

Today the United States citizens will have the opportunity It's doing your noblest—that's Sucto pay respect to "Old Glory." The proper thing to do, when you see the Stars and Stripes displayed, is to stand up and take off your hat.

The colors of the flag are thus explained: the red for valor, zeal and fervency; white for hope, purity, cleanliness of heart and rectitude of conduct; the blue, the color of the sky, for loyalty, sincerity, justice and truth.

The stars symbolize dominion and sovereignty, as well as loyal aspirations. The constellation of the stars within the Interior Harold L. ### TRANS-ATLANTIC AIR SERVICE

It will not be possible to eat breakfast in New York and dinner in Paris when trans-Atlantic air passenger service begins on June 28. The crossing by air, from Port Washington, L. I., to Marseilles, France, by way of the Azores, will require 44 hours. Time required for the crossing will be shortened, however, as soon as arrangements are made to fly over Spain, thus eliminating an over night stop at Lisbon. The route selected for the passenger service will be 4650 miles long at the start.

Passenger flights over this route will be made weekly, and weekly air mail flights to London by way of Canada and Newfoundland will Flag of the mother, father, brother, commence on June 24. Both services will be placed on a twice-weekly basis as soon as patronage warrants, Pan American Airways announces. Peace Sought By Arab Negotiator

Aged Englishman, 70, Says Chamberlain Can Bring Peace To Palestine

By RUSSELL F. ANDERSON International News Service Staff

Correspondent LONDON.—A 70-year-old mysterious Englishman, Daniel Oliver, who intimately knows the secrets of the Near East by reason of his "Lawrence of Arabia" adventerous life, today was regarded as the man most likely to aid in bringing about peace in bloody Palestine.

Oliver, who has spent the greater part of his life roaming the desert wastes and living in Arab encampments, is regarded as a friend by both sides involved in the strife-torn

In England to plead the case of the desert chiefs before the London Conference, Oliver, who dresses in the picturesque manner of the Arab tribes, believes that Britain's prime minister, Neville Chamberlain, can do most in settling the bloody fued in Palestine.

convinced, can make this conference a success and by that can bring peace to Palestine. "He is Mr. Chamberlain.

"I believe the conference will succeed if the man who tackled a far greater problem-in going to Berchtesgaden. Godesburg and Munich-and, who is in my opinion, the greatest peacemaker the world has ever known, will throw all his weight into arriving at an enduring peace for a troubled country."

Once Near Death veteran negotiator of the Arabs, whose life is as mysterious as the one lead by Lawrence, was once sentenced to death as a "British Spy" by the very same Arabs, whose cause he now pleads, Intervention of a judge, and former

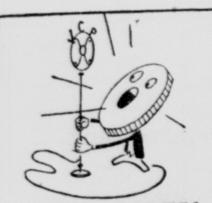

friend, prevented the execution. Commenting on the activities of British officials in strife-torn Palestine. Oliver said:

"It is not the British officials nor British administration in Palestine which have caused the trouble. It

By MESEEALL. Hi-Ho everyone . . . how are all the graduates of the senior high school . . . the new ones and ones that have been out in the world many, many years. Are you all ready for the annual party . . . remember, it will be held at Cascade park on the evening of June the 23rd. A business meeting and get-together will be featured between the hours of eight and nine . . . dancing from nine until twelve with a dandy entertainment along the dancing hours somewhere. The price per couple is very reasonable . . . only seventyfive cents. Just between the gate post and you . . . I think there will be a dandy crowd . . . it will be a great time to get back among the crowd and shake hands . . . see how many children Mary has and where Joe has been for the past few years. People are inter-

ested in you and we know you are interested in people. Walking and driving the downtown streets . . . has given us this idea . . . that it would be a splendid idea to have traffic police on duty throughout the week on busy intersections instead of two days as they are now. There should be a man on the corner of

The suggestion was made sometime ago concerning the idea of calling a pedestrian when he jay-walked. In a great many cities of this United States the pedestrian is not only called about this practice, but fined a nice heavy fine for the violation. We don't suggest that a fine be placed on the citizens of this section, but we would like to see them called. We all jay-walk . . . and after a policeman blew his whistle at us once or twice . . . we might take the hint and wait for the traffic light. No one is in such a hurry but what they can wait a moment for safety's sake.

If the sun would come out nice and bright . . . you would see the corn grow like bad weeds. But it won't be a bad weed in a few weeks. Nice juicy corn on a cornroast . . . what a life . . . but we are not anxious to have a cornroast because summer is too near over . . . and the longer it is warm the better we like it. And might we suggest that you read the classified ads page today ... there are some mighty interesting items on sale . . . and some mighty good positions open . . . keep your eye on this page and live easier.
